

BROTHERHOOD CHIEFS INVITED TO CONFERENCE

Germany's Chancellor Will Submit Resignation of Ministry

OPPOSITION GROWING
THROUGHOUT NATION
REGARDING RADICALS

(By Associated Press)

BERLIN, Oct. 18.—Dr. Joseph Wirth, German chancellor, is believed here to be prepared to submit his resignation to President Ebert. Official announcement is expected momentarily. Political conditions in Germany would seem to indicate growing opposition to a continuance in power of the radical political parties. Socialist and communist parties, which for years have held control of the city council, were defeated in the Berlin municipal elections Sunday. The bourgeois parties elected 116 candidates while only 106 radicals were successful.

Philip Scheidemann, former secretary for foreign affairs, was fired upon during a meeting of the German People's party in Ludenscheid, Westphalia, last night. The bullet went wild and Scheidemann was uninjured. Five persons were arrested for the attempted assassination.

PARTNER SCOTTY
TAKES VACATION
AT DEATH VALLEY

"Death Valley Scotty's" partner for the last 14 years was a visitor to Tonopah this morning between trains, having arrived from Goldfield and departing for the north an hour later. His name is Albert M. Johnson and he is president of the National Life Insurance company of the U. S. A., with headquarters in Chicago. A millionaire several times over, Mr. Johnson smiles when asked concerning his past association with "Scotty," informing his inquirer that he will have to ask "Scotty" regarding the matter.

Mr. Johnson is the owner of the ranch where "Scotty" makes his headquarters, and which is situated 19 miles from Bonnie Claire. He has just returned from a two week's visit with "Scotty" and showed the effects of roughing it on the desert. "Nothing pleases me more," remarked Mr. Johnson, "than to get out and rough it with a pack animal following along with the supplies. I make it a point yearly to visit with 'Scotty' and we sure enjoy ourselves."

In speaking of industrial conditions throughout the country, Mr. Johnson stated that he looked for the worst winter this country has experienced during the past 35 years. "The east is flooded with idle men," he continued, "and I can see little relief before next spring. The threatened railway workers' strike will seriously impede the industrial life of the country."

MINE SECRETARY HERE

Henry Rives, secretary of the Nevada Mine Operators' association, arrived in Tonopah this morning to look after official business. The visitor is a brother of Allen Rives, well-known local mining man.

POY CONVICTED
FEDERAL COURT
SELLING DRUGS

C. Y. Poy, long time resident of Tonopah, was found guilty of violating the Harrison drug act by a jury in the federal court at Carson City yesterday morning. Poy was arrested here several weeks ago by a special government agent who alleged that he found a can of yonkers in Poy's place of business on lower Main street. At the preliminary examination held before Commissioner Hutton Poy was held to await the action of the federal grand jury in \$1000 bonds.

Sentence had not been passed at this writing, but the penalty carries a penitentiary sentence.

CAMP FOR
INTERRED
PRISONERS
DESTROYED

CORK, Oct. 18.—The work of destruction, begun Sunday by occupants of the Spike Island camp for interred prisoners when they became enraged because they were not permitted to attend mass, it is alleged, was continued today, and the cheering of the prisoners as they carried on operations was plainly heard in Queenstown. The buildings on the island known as block B were destroyed yesterday, while another group, known as block A, was pretty well demolished today.

SILVER STATE
PUBLISHER IS
VISITOR HERE

W. H. Ayres, publisher of the Silver State at Winnemucca, and a former employee of The Bonanza, accompanied by his wife, were arriving in Tonopah this morning. Mr. Ayres recently witnessed the destruction of his printing plant, but he was equal to the emergency and continued publication of the Silver State, although the paper has appeared in abbreviated form. He expects shortly to have new equipment installed and will then proceed with the publication of a bigger and better paper than previous to the fire, and that will be going some. Mr. Ayres intends to make the Silver State the leading paper of eastern Nevada. Mr. and Mrs. Ayres are guests of Mr. and Mrs. John Connors.

ULSTER FORCE
REORGANIZING
TO MEET FOES

(By Associated Press)

RELEASED, Oct. 18.—Reports that the Ulster volunteer force is being reorganized were verified in official quarters today. It was stated that Ulster ex-service men were enrolling. "Why shouldn't they be, when the Sinn Féiners are drilling even in Belfast," was the comment in official quarters.

CALIFORNIA
TO FURNISH
TROOPS IF
NECESSARY

(By Associated Press)

SAN FRANCISCO, Cal., Oct. 18.—Should the necessity arise during the threatened general railroad strike, 8000 troops of the Ninth army area will be ready for action, Major General Wright said today. No special plans have been made, he said. The area comprises Oregon, Washington, California, Nevada, Montana, Utah and Wyoming. "The army is the last resort," said General Wright.

"The situation will first have to be handled by the local authorities. If they are unable to cope with it, the National guard can be called upon to act. If the situation gets away from the National guard, the president may see fit to call on the army," Wright said.

OLD LANDMARK
THREATENED BY
BLAZE IN SHED

Fire that found its origin in an old garage adjoining the Casino on lower Main street threatened the destruction of that famous old landmark at 11:50 a. m. today. The old shed was used in the making of "home brew" beer and while it is not definitely known how the blaze originated, it is believed that it started as a result of the feeder from the oil tank to the burner of a large range running low, setting fire to accumulated grease on the stove. F. L. Ricksteiger, who was in charge of the shed, had gone out to purchase some washing powder and when he returned about five minutes later he found the top of the stove ablaze. Grabbing a pail of water he threw it on the fire, with the result that the north side of the room became a roaring furnace. He immediately closed the door to prevent the spread of the flames and an alarm was turned in which was responded to immediately. The damage was slight.

CHANCELLOR WIRTH
OFFERS RESIGNATION

(By Associated Press)

PARIS, Oct. 18.—Chancellor Wirth of Germany has announced to the commission of deans of the reichstag his intention to resign after the decision of the council of the league of nations relative to Upper Silesia is received.

PRESIDENT
ASKED TO
ADJUST OIL
DIFFICULTY

(By Associated Press)

WASHINGTON, D. C., Oct. 18.—Thomas O'Donnell, of Los Angeles, president of the American Petroleum Institute, presented to Secretary of Labor Davis the oil operators' views on the strike in the California oil fields, and was taken later to call on President Harding. Efforts are being made by the department, it was said, to bring about an adjustment of the dispute.

(By Associated Press)

BAKERSFIELD, Cal., Oct. 18.—Fifteen deputy sheriffs who were authorized yesterday to work in the oil fields today. The strike leaders, when asked whether the placing of these men would end the activities of the "law and order committee," said it was thought probable the patrols might be withdrawn.

Heavy withdrawals of funds from the Security Trust company by the striking oil workers was checked when the men became convinced that rumors of impending damage suits against them were unfounded. The bank said that less than \$50,000 had been withdrawn and it was prepared to pay all demands promptly. A statement published today said the oil operators would look to the counties and cities to reimburse them for any damage they suffered because of the strike, and was construed by rumor to mean that actions were impending against individual strikers, and the men promptly began to get their funds out of the bank to avoid what they believed were threatened attacks.

SILVERTON IS
SCENE OF RICH
MINERAL FIND

Silvertown as a mining district continues to gain in popularity by reason of the discoveries that are made from time to time on the property of the Treasure Hills Mines company. The latest find to be announced was given out this morning by Joe Tognoni, father of that district, who arrived in Tonopah last night, bringing with him samples of high-grade ore that were taken from a cross vein on surface that carries values running around 250 ounces in silver a ton. The ore shows liberally of chlorides and black metal, and where encountered has a width of 6 inches, although the vein is a monster in width.

The find was made in prospecting on surface near the point of the big blow-out, and what gives significance to the discovery is the fact that the ore is identical in character with that found in the new shaft at a depth of 50 feet. Seven years ago Mr. Tognoni started a crosscut tunnel to intersect this cross vein, but after driving 136 feet work was suspended. It is now proposed to extend this tunnel another 50 feet to cut the vein at a depth of 175 feet and in view of the fact that rich ore has been found on surface it is evident that the shoot will be found to be persistent down to the 175-foot point.

MAIL DELIVERY
IS PROMISED IN
CASE OF STRIKE

(By Associated Press)

WASHINGTON, D. C., Oct. 18.—The postoffice department is said to have completed its plans to meet any eventualities in the railroad strike. No action is contemplated by the department, however, it was said, unless there is interference with the mails as a result of the strike.

HITCHCOCK
INSISTENT
TREATY BE
APPROVED

(By Associated Press)

WASHINGTON, D. C., Oct. 18.—Re-establishment of peace with Germany as necessary for American and world rehabilitation was the fundamental reason given in the senate today by Senator Hitchcock, ranking Democratic member, and former chairman of the foreign relations committee, for favoring ratification of the peace treaty with Germany.

"The question before us now," said Hitchcock, "is not a choice between the Versailles treaty and the pending treaty, but between the pending treaty and protracted uncertainty without any treaty." He declared the American electorate had "commissioned" foreign affairs to President Harding.

LLOYD GEORGE
LIKELY ATTEND
SESSIONS HERE

(By Associated Press)

LONDON, Oct. 18.—Premier Lloyd George stated in the house of commons today that he hoped to go to the Washington conference on limitation of armaments and far eastern problems as soon as the parliamentary and general situation rendered it possible.

KOONTZ IS BELIEVER
IN MANHATTAN CAMP

L. K. Koontz, old-time mining operator of Manhattan, Goldfield and southern Nevada, is a visitor in Tonopah. Mr. Koontz still thinks the Pine Tree camp is destined to enjoy a period of great prosperity in view of the showing that has taken place on the White Caps mine, and is making preparations to develop the Mustang and other properties in which he is heavily interested. He has some leasers at work on the latter property and satisfactory results have been forthcoming lately.

NEW DOCTOR ARRIVES

Dr. A. B. Carmichael of Reno was an incoming passenger this morning and may henceforth make his home in Tonopah. If he decides to locate here he will be Dr. Claude H. Church's assistant in association with the Mine Operators' hospital.

EFFORT IS MADE TO
FORESTALL WALKOUT
BY NEW PROPOSALSCONVENTION OF
LEGION MEN TO
BE HELD SOON

(By Associated Press)

INDIANAPOLIS, Ind., Oct. 18.—Delegates to the national convention of the American Legion in Kansas City on October 31 and November 1 and 2 will go to the convention city before the general railroad strike is scheduled to go into effect and "will abide by the fortunes of war when it comes to getting back," according to a statement issued at the headquarters of the Legion here.

ANGLO-JAP
TREATY IS
NOT LIKED
SAYS BRYCE

(By Associated Press)

LONDON, Oct. 18.—Americans are apprehensive of Japanese designs, says Viscount Bryce, former British ambassador at Washington, in an article in the Times. He declares the Americans hold the view that the Anglo-Japanese treaty encourages Japan to take an aggressive attitude. Viscount Bryce declares the fear of Japanese designs, among other things, that the Japanese in California are not dangerous enough to be a danger, although they are crafty and progressive.

ARROWHEAD HAS
NEW DISCOVERY
OF IMPORTANCE

One of the most important mineral finds that has been made in months on the main Arrowhead mine at Arrowhead was given out officially this morning by Pete Fox, superintendent, who arrived in Tonopah last night, bringing with him a couple of hundred pounds of excellent grade ore which had just been encountered in the shaft at a depth of 352 feet. The ore vein has a width of 8 inches and is showing on the footwall, and came entirely as a surprise by reason of the fact that the ore left the shaft at a depth of 292 feet.

Stringers of ore will unquestionably carry values of more than 200 ounces silver a ton, while the 8-inch streak will mill better than \$50 a ton. It is believed that a great body of high-grade ore is now putting in its appearance, and so confident is Superintendent Fox that sensational developments are taking place, that he left again this morning for the seat of operations.

CLEVELAND, Ohio, Oct. 18.—A scheduled meeting here today of the "Big Five" transportation brotherhoods was canceled this morning when the five executives were requested by the railroad labor board to meet with the board in Chicago on Thursday morning. Warren B. Stone, president of the Brotherhood of Locomotive Engineers, announced today.

CHICAGO, Oct. 18.—Telegrams summoning the chiefs of the four big brotherhoods and Switchmen's Union of North America to a conference with the railroad labor board in an endeavor to forestall an actual walk-out on the nation's railroads, were dispatched to the labor chiefs today. No time as to what the conference will discuss could be obtained, but it was said that new proposals would be presented to the labor men.

WASHINGTON, D. C., Oct. 18.—The action of the railroad labor board in summoning the railroad union chiefs to Chicago for a conference was described in high official circles as the first step in determining whether the board is an efficient government agency.

The impression was given in administration quarters that freight rate reductions were under consideration. There was no statement to indicate how soon a decision on the question might be reached, but high administration officials vouchsafed the information that an announcement concerning rate readjustment might come within a few days.

ROSETTA IS MAKING
SPLENDID SHOWING

The Rosetta property in the Pioche is receiving well directed attention, although not on an elaborate scale. The showing on the Pioche level as announced this morning officially, is most promising, a 12-inch streak of ore having been encountered in the north drift that shows assay values in gold averaging about \$15 a ton. This company has been prosecuting work continuously for a long period, not only through the main shaft, but in surface exploration, and while no high-grade shipping ore has been encountered, the showing has fully warranted continued exploration. Upon the return of David Murphy, the superintendent, who has been confined in a Reno hospital, it is understood that the scope of operations will be enlarged.

BUTLER
THEATRE
ROY STEWART—ROBERT
M'KIM—FRITZIE BRUNETT
AND JOS. J. DOWLING in
"THE DEVIL TO PAY"

A startling expose of life in high places; a tidal wave of suspense. A drama of a society leader who, leading a double life, pitted God against the devil.
